THE WORLD'S MOST ADVANCED SERGER

Key Serger Features

Instant Jet Air Threading

By simply touching a lever, your thread "Jet-Airs" through the tubular upper, lower, and chain-stitch loopers. You can also thread the Evolve in any order, so it's easy to keep track of those eight threads. Jet-Air Threading is without a doubt the easiest threading system available today, and it's brought to you exclusively from Baby Lock.

Automatic Thread Delivery System

Set the Evolve to any type of stitch you want and serge without having to worry about the tensions. Baby Lock's exclusive Automatic Thread Delivery System delivers a balanced stitch on any fabric with any type of thread, and even goes from one fabric type to another without skipping.

Chain and Cover Stitches

Eliminate the need for a cover stitch machine! The Evolve is the first serger ever to chain off the cover stitch, and you'll find that it sews heavier fabrics better than many cover stitch machines. One dial adjusts all cover stitch needles for simplicity. With the Evolve, you're really getting two machines in one!
